## FINDS CAUSE OF VARIABLE STARS

PROF. SEE MAKES DISCOVERY—DISCARDS NEBULAR HYPOTHESIS—PLANET COLLISIONS THE CAUSE.

Vallejo, Cal., Aug. 7.—Announcement is made by Prof. T. J. See, U. S. N., astronomer in charge of the naval observatory at Mare Island, that he has established the general cause of variable stars. For the last two years Prof. See has been occupied with extensive searches in Comical Evolution. He recently discarded the nebular hypothesis in favor of the "capture theory," as the result of his studies.

The main cause to explain the round form of the planetary orbits and other heavenly motions, he says, is a resisting medium of nebulous material which he says, is diffused everywhere in space.

After careful investigations, Prof. See says that cluster variables are suns extended by planets which revolve in close proximity in short periods, and that after passing through perihelion they plunge into a resisting medium of nebulousity so that the light suddenly blazes up and afterward dies down gradually. According to Prof. See this accounts for the abundance of variables in certain clusters, and there is almost a total absence in others.

Prof. See says he believes also the blazing forth of new stars now and then in the heavens is caused by collisions with planets revolving about them.

## BILLINGS AFTER RECORD

Owner of Uhlan Hopes To Trot His Horse Better Than 2:03 3/4 At Cleveland Meeting.

New York, Aug. 7.—C. K. G. Billings, owner of Lou Dillon, has gone to Cleveland to drive his trotter, Uhlan, 2:02 3/4, at the opening of the grand circuit meeting there tomorrow.

row in an attempt to lower the world's record to wagon without the aid of a wind shield. The record is 2:03 3/4, made by Major Delmar, in 1903.

Billings recently drove Uhlan a mile to a wagon in 2:02 3/4 but the performance was made at an amateur meeting, and was not a technical record. Uhlan trotted a mile to a sulky a few days ago in 2:00 1/2, which is faster than any other horse has ever shown in public or private without a wind shield.

Billings has arranged to bring his horse east after the Cleveland engagement and it is expected he will start to beat the world's record to a sulky during the New York Grand Circuit meeting, August 23-27, at Yonkers.

## DARING NIGHT FLIGHT

Young Welchman Uses Dirigible of His Own Construction—Sets a Record for Great Britain.

London, Aug. 7.—A young Welchman named Willows has made a daring night journey in a small dirigible of his own construction. Starting at Cardiff at 8 o'clock last evening, he made Crystal Palace, London, his objective point. He was guided by the lights of towns along the way. Nearing the palace his petrol became exhausted and he drifted about for a time, finally descending safely near Lee, a southeastern suburb of London, at six o'clock this morning.

He covered 160 miles, which is a record for an airship flight in Great Britain.

## CHILD ATTACKED BY ROOSTER AND BADLY HURT.

Chicago, Aug. 7.—Everett Busse Weber, aged five was attacked and badly injured here today by a game rooster. The child was unconscious when the bird was driven from him. The rooster jumped upon the boy's head and inflicted several gashes in the forehead, in one of which a deep blood vessel was cut.

## His Natural Way.

"In spite of all her resistance, that young soldier caught his sweetheart and ardently embraced her." "Well, it is quite natural for a soldier to gain his conquest by force of arms."

block in the way of any contest he was asked to become a party to, but on the contrary made concessions so as to lessen the troubles of the promoters.

In the case of Langford, however, I can not point to a single act on Johnson's part which can be regarded as evidence that he is willing to decide which is a better man.

It isn't exactly inexplicable at that, for there never was a fighter yet who did not keep in view some one man that he feared and respected more than all the others. Sam Langford seems to be Jack Johnson's bugaboo.

(Concluded from First Page.)

plague started in 1902. Odessa has been afflicted with a scourge of rats since May, and the ineffective measures taken to kill off the rodents by the authorities is blamed for the present outbreak.

## Woman's Way.

Every woman who moves claims that she cleaned the house she left, and then had to clean the house she moved into.—Atchison Globe.

## Modern Marriage.

Every marriage should have a business manager, a cool, sensible man to see that the parties are properly mated. The parties to the marriage will attend to the love but neglect the business end of the match, which is more important.—Atchison Globe.

## Modernized.

Auntie Back from the sewing circle? I suppose you are making a crazy quilt for poor old lady Jones? Gwendolyn—Not much. Each girl brought a piece of a busted auto, and we are going to have them put together into a new machine for poor divorced Mrs. Uppish.—Pack.

## Chameleon Woman.

You may be sure a woman loves a man when she uses his expressions, tells his stories or imitates his manner. This gives a secret delight; for imitation is a kind of artless flattery, and mightily favors the principles of self-love.

## The Short and Simple Annals.

"Me gotta da good job," said Pietro, as he gave the monkey a little more line after grinding out on his organ a selection from "Santa Lucia." "Getta forty dollar da month and eat a myself; thirty da month if da boss eat a me."—Everybody's Magazine.

## Polish for Mahogany Furniture.

A tablespoon each of olive oil and vinegar to one quart of lukewarm water will be found a most effectual way for both cleansing and polishing mahogany furniture. Moisten a soft cloth with the mixture and apply to the article, rubbing vigorously.

## Carping.

The professor of literature had been criticised sharply for certain letters written by him. "Confound these cheap critics," he muttered, "there's nothing wrong with the letters. I defy any one to find a split infinitive in the lot."

## Luck.

"Have any serious trouble with your new automobile?" "Not a bit. So far I haven't hit a single man without being able to get away before he got my number."—Cleveland Leader.

## Modified It.

"How was the hotel you stopped at?" "So bad that father swore he would never go there again." "That was strong language." "Oh, I don't know. At first he swore that he would never go anywhere again."

## Make a Friend a Day.

One of the busiest men in a busy city says: "I try to make at least one friend a day." That seems more than most of us can manage, and yet the wayside spring on the country road makes a friend of every passerby.

## Always a Brighter Side.

Melancholia comes from a disordered imagination. Try to introduce pleasant things to think about, and give the worried ones something to do until they let go the unhealthy frame of mind.

## Relationship.

You are first cousin twice removed to your first cousin's grandchild. Grandchildren of first cousins are third cousins to one another, and your cousin's child is your first cousin, once removed.

## Result of Atmospheric Pressure.

High atmospheric pressure in the case of persons not doing manual labor has been found to act as a mental stimulus, increasing the impulse to talk.

## Ready for Any Possibility.

There is nothing like providing for all eventualities. A London woman informed the magistrates that when her husband struck her she sent for the police, the doctor and the vicar.

## Counterfeits.

An impudent fellow may counterfeits modesty; but I'll be hanged if a modest man can ever counterfeit impudence.—From "She Stoops to Conquer."

## A Change Impending.

He—"If you accept me it will make another man of me, but if you refuse me I shall never be the same man again."—Punch.

## Taffy for Grandmother.

There is hardly anything that flatters a grandmother more than telling her you don't believe she is one.—Galveston News.

## A Word of Encouragement.

If the timber supply runs out entirely why not use for building in future the tables that came over in the Mayflower.—Louisville Courier-Journal.

## Queer Reason for Divorce.

Woman wants to divorce her husband because he stutters. Most married men don't even get a chance to do that.—New York Herald.

## Peace and War.

A man should be as ready to fight for the best interests of his country in time of peace as in time of war.—Theodore Roosevelt.

## Horse's Small Stomach.

The horse has a smaller stomach in proportion to its size than any other quadruped.

## Adversity and Virtue.

Adversity tries men, but virtue struggles after fame, regardless of the adverse heights.—Stilus Italicus.

## Just So.

Heredity never gets the blame for much else than faults; a man credits his virtues to himself.

## Baby's Voice

Every woman's heart thrills at the cooing and prattling of a baby, and motherhood is her highest and purest joy. Yet the suffering incident to this great consummation of her life's desire, robs the anticipation of some of its sweetness. Much of this can be avoided by the use of Mother's Friend. This great remedy prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. Mother's Friend assists nature in gradually expanding all tissues, muscles and tendons, it strengthens the ligaments, and keeps the breasts in good condition. The use of Mother's Friend lessens the pain when baby comes, and assures a quick and natural recovery for the mother. For sale at drug stores. Write for free book for expectant mothers.
